1. (S/NF/SK) Tasking: Original tasking data sheet attached. No change in tasking. Monitor intent was to follow up source's 25 March 87 session.
2. (S/NF/SK) Session: (PI of "ORV envelope"). Source was asked to review his last session notes, particularly the data referencing the unusual, large structure, then to begin session in S4. Monitor attempted to squeeze more data out of this session, but source seems to have been wrung dry. Monitor injected cues: "purpose", "target area", and "director".
3. (S/NF/SK) Summary: Source described structure as having the shape of "an inverted drinking cup". Two areas within the structure were perceived by the source. Inside the first area is a thick, dark, sweet-tasting, foul-smelling, warm liquid. The liquid's warmth was somehow important. An adjacent, but lower, area is lit by both natural and artificial light; it is clean and dry. People are present here who seem to be observing and discussing.
4. (S/NF/SK) Feedback: None provided to source.

SUMMARY:

STRUCTURE SEEMS TO HAVE ~~THE~~ ^{THE} SHAPE
~~RESEMBLES~~ OF AN INVERTED DRINKING GLASS, INSIDE
 IT THERE ~~ARE TWO~~ ^{ARE TWO} AREAS WHICH ~~ARE~~ ^{ARE} SEPARATED OFF
 FROM THE REST. ~~TO SHARPEN~~

INSIDE THE FIRST IS A THICK, DARK
 LIQUID WHICH IS WARM. THE WARMTH IS
 SOMEHOW IMPORTANT. THE LIQUID IS ~~THE~~ SWEET,
 BUT ONLY FOR SMELLING.

THE OTHER AREA IS LIGHT, CLOUDY,
 BRIGHT & DRY. PEOPLE MEET IN IT. THIS AREA
 SEEMS TO BE BOTH BESIDES THE OTHER, AND AT
 A DIFFERENT LEVEL THAN ~~THE~~ THE FIRST.

SESSION END 11:10 HRS.
